## INTRODUCTION

The *Illinois Register* is the official state document for publishing public notice of rulemaking activity by State governmental agencies. The table of contents is arranged categorically by rulemaking activity and alphabetically by agency within each category. Rulemaking activity consists of proposed or adopted new rules or amendments to or repealers of existing rules, including those by emergency or peremptory action.

The *Register* also contains Executive Orders and Proclamations issued by the Governor, notices of public information required by State statute, and activities (meeting agendas, Statements of Objection or Recommendation, etc.) of the Joint Committee on Administrative Rules (JCAR), a legislative oversight committee which monitors the rulemaking activities of State agencies. In addition, the *Register* contains a Cumulative Index listing alphabetically by agency the Parts (sets of rules) on which rulemaking activity has occurred in the current *Register* volume and a Sections Affected Index listing, by Title of the *Illinois Administrative Code*, each Section (including supplementary material) of a Part on which rulemaking activity has occurred in the current volume. Both indices are action coded and are designed to aid the public in monitoring rules.

The *Register* will serve as the update to the *Illinois Administrative Code*, a compilation of the rules of State agencies. The most recent edition of the *Code* along with the *Register* comprise the most current accounting of the State agencies' rules.

The *Illinois Register* is the property of the State of Illinois, granted by the authority of the Illinois Administrative Procedure Act (Ill. Rev. Stat. 1985, ch. 127, pars. 1001 et seq., as amended).

- 5) A Complete Description of the Subjects and Issues Involved:

Changes have been made throughout Subpart A, which serves as an introduction to this entire Part, to reflect the deletion of the requirement that plan documents be submitted to the State Board for approval. New language has also been added to Section 210.10 to set forth the requirement that assurances be sent to the Board with respect to all scheduled plans and any amendments. The specific assurances are also set forth in this Section now.

Subpart B, Learning Assessment Plan, contains additional changes consistent with this approach; approval by the local board of education has been substituted for submission to the State Board of Education throughout. Other material within Subpart B has been reorganized so that the required content of Learning Assessment Plans is clearly set forth. This provides for needed accountability relating to the provision of assurances to the State Board.

Section 210.130, Reporting System, contains proposed new language requiring copies of materials disseminated to the public to be submitted to the State Board. The schedule for development of districts' Learning Assessment Plans in the various remaining learning areas is shown in Section 210.140. Language added to 210.140(b)(3) serves to encourage districts to space out their local assessment activities during the year and provides the desired flexibility in choosing local learning objectives for assessment. Section 210.140(b)(4) shows the phasing-in of the complete assessment schedule and illustrates the difference between the state assessment schedule and the local schedule once assessment in all areas has been initiated: local assessment will cover all the areas of learning each year, while state assessment will cover Reading, Mathematics, and Language Arts each year and either Social Sciences and Fine Arts or Biological and Physical Sciences and Physical Development and Health.

## STATE BOARD OF EDUCATION

## NOTICE OF PROPOSED AMENDMENTS

The changes proposed to Subpart C, School Improvement Plan, mirror some of those made in the sections pertaining to Learning Assessment Plans. That is, local board approval is required, submission to the State Board is deleted, and the provision of assurances within a certain time period allows the Board to monitor compliance with its requirements regarding these plans.

## POLLUTION CONTROL BOARD

## NOTICE OF PROPOSED AMENDMENTS

- 1) The Heading of the Part: Permits And General Provisions
- 2) Code Citation: 35 Ill. Adm. Code 201
- 3) Section Number: 201.405  
Proposed Action: Amend
- 4) Statutory Authority: Illinois Environmental Protection Act (Ill. Rev. Stat. 1987, ch. 111 1/2, pars. 1010 and 1027)
- 5) A Complete Description of the Subjects and Issues Involved:

The Board is proposing to correct 35 Ill. Adm. Code 201.405, which was the subject of a previous Board rulemaking proceeding, R87-38. After fulfilling the rulemaking requirements of the Illinois Administrative Procedure Act (APA), the Board adopted Section 201.405 on December 15, 1988. In the Board's final Order, Section 201.405 consisted of five subsections, (a) through (e). However, the Board's submission of the adopted rules to the Secretary of State was incorrect. Although the Illinois Register copy correctly set forth Section 201.405, the official Secretary of State's file copy inadvertently omitted subsections (a) and (b). Thus, the official copy of Section 201.405 does not correctly represent the substantive provisions agreed upon by the R87-38 joint proponents and thereafter adopted by the Board. The purpose of the instant rulemaking proceeding is to correct the official copy of Section 201.405 to accurately represent the Board's intent in R87-38.

- 6) Will this proposed rule replace an emergency rule currently in effect? No.
- 7) Does this rulemaking contain an automatic repeal date? Yes ☒ No ☐  
If "yes," please specify the date: \_\_\_\_\_
- 8) Does this proposed (amendment, repealer) contain incorporations by reference?  
No
- 9) Are there any other amendments pending on this Part? No.

10) Statement of Statewide Policy Objectives:

As this is a correction to Section 201.405 by inserting two inadvertently omitted Subsections, no substantive changes are being made that would affect local governments. Local governments may analyze this proposed rule to determine whether they are affected and may submit comments to the Clerk of the Board at the address in paragraph 11.

any corrective actions taken; operating status of the monitoring system, including any dates and times of any periods during which it was inoperative; and other information, including for example, monitoring location. Section 201.405(b) describes the averaging period used in data reporting for gaseous sulfur dioxide, percent oxygen, or carbon dioxide measurements.

11) Time, Place and Manner in which interested persons may comment on this proposed rulemaking:

Send written comments concerning R89-7 within 45 days of publication in the Illinois Register to the Clerk of the Pollution Control Board, 100 West Randolph Street, Suite 11-500, Chicago, Illinois 60601.

D) Types of professional skills necessary for compliance:

In determining whether an affected source is in compliance with this section, the professional skills of an attorney may be required. In addition, the continuous monitoring may require technical, scientific, or engineering professional skills.

12) Initial Regulatory Flexibility Analysis (if applicable):

A) Date rule submitted to Business Assistance Office of the Department of Commerce and Community Affairs:

May 11, 1989

B) Types of small businesses affected:

Certain fossil fuel-fired steam generators, sulfuric acid plants, nitric acid plants and petroleum refineries, which were required to conduct self-monitoring of certain types of air emissions in the previous Board rulemaking adopting this Section (R87-38), may be affected by the proposed amendments. As this section is being amended to correctly represent the substantive provisions agreed upon by the R87-38 joint proponents and thereafter adopted by the Board, no substantive changes are being made.

C) Reporting, bookkeeping or other procedures required for compliance:

Pursuant to Section 201.405(a), owners and operators of sources subject to the continuous monitoring must report, for periods of emissions in excess of any emission limitation adopted by the Board: starting date and time; duration; magnitude; cause, if known;

## NOTICE OF PROPOSED AMENDMENTS

a) Upon receipt of the contesting party's petition together with the proper filing fee, and upon assignment of a docket number to the petition, the Clerk of the Property Tax Appeal Board shall secure an explanation of the Board of Review's action on the local appeal of the property (Form PTAB-6) and a copy of the property record card of the subject property from the local Board of Review showing the assessed valuation for the assessment year and for the property under appeal. This explanation must also reflect the application of a local township multiplier where applicable. The property record card should contain, where possible, a schematic drawing of all structural improvements to the land, a completed cost analysis, and an indication of the basis of the land value. Form PTAB-6 and all written and documentary evidence supporting the county's Board of Review's position must be submitted to the Property Tax Appeal Board within 30 days after the date and/or postmark of the notice of the filing of an appeal unless the Board of Review objects to the jurisdiction of the Property Tax Appeal Board over the assessment appeal. If the Board of Review objects to the Board's jurisdiction, it must submit a written request for dismissal of the petition prior to the submission of Form PTAB-6 and accompanying documentation. The request for dismissal must set forth the basis of the Board of Review's objections to the Property Tax Appeal Board's jurisdiction over the appeal. In such cases, the Property Tax Appeal Board shall transmit a copy of the request for dismissal to the contesting party and secure a written response to the request for dismissal from the contesting party. A copy of the response shall be transmitted to the Board of Review. Upon receipt of the request for dismissal and the response, the Property Tax Appeal Board shall issue a decision determining if it has jurisdiction in the matter. If the Board determines that it has jurisdiction over the parties and the subject matter of the appeal, the Board of Review shall submit Form PTAB-6 and all written and documentary evidence within 30 days of the Board's decision determining jurisdiction. If the county Board of Review is unable to submit the additional written or documentary evidence with Form PTAB-6, it must submit a letter requesting an extension of time with Form PTAB-6. Upon receipt of such a request, the Board shall grant a 30 day extension of time. The Board shall grant additional

Good cause shall be the inability to submit evidence for a cause beyond the control of the Board of Review, such as the pendency of court action affecting the assessment of the property or the death or serious illness of a valuation witness. Without a written request for an extension, no evidence will be accepted after Form PTAB-6 is filed. The Clerk shall cause such assessment record to become a part of such appeal proceeding and record, and shall send a copy of the same to the contesting party or his attorney.

b) In every petition for appeal where a change in assessed valuation of \$100,000 or more is sought, the Board of Review shall serve a copy of the petition filed with the Property Tax Appeal Board upon receipt of the same on all taxing districts as shown on the last available tax bill. The Board of Review shall also serve a certificate of service on the Property Tax Appeal Board affirming that all taxing districts have received notification of the appeal. The certificate of service shall be signed by the Chairman of the Board of Review.

ed) By statute, the Property Tax Appeal Board may accept into the record all evidence, exhibits and briefs submitted by all interested parties and render a decision without holding a hearing. However, on its own motion, the Board may order a hearing to be held at a time and place designated by the Board. The Property Tax Appeal Board may order such a hearing continued for additional testimony, evidence or exhibits, or it may make such investigation concerning the appeal on its own initiative as it deems proper.

The Board may revise and/or correct a decision upon its own initiative at any time prior to the expiration of the 35 day appeal period as provided in Section 111.4 of the Act if a mistake in the calculation of an assessment or other clerical error is discovered. In such event, the Board shall issue an amended decision. The decision or order of the Property Tax Appeal Board in any such appeal shall, within 10 days after it is made and entered, be certified to every party to the proceeding and to the proper authorities, including the Board of Review whose decision was appealed, the County Clerk who extends taxes upon the assessment in question, and the County Collector (Treasurer) who collects property taxes upon such assessment.

b) Under the burden of going forward, the contesting party must provide substantive, documentary evidence or legal argument challenging the correctness of the assessment of the subject property. Failure to do so will result in the dismissal of the appeal.

c) Once a contesting party has provided evidence or argument sufficient to challenge the correctness of the assessment of the subject property, the Board of Review shall be required to go forward with the appeal. ## Section 1910.65 - Documentary Evidence - Rebuttal

a) The Property Tax Appeal Board generally considers appeals with respect to the correct valuation of property for assessment purposes based upon the following contentions: that the subject property is not accurately assessed when its assessment is

b) Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of the subject property and of the suggested comparable properties, and documentation of the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property.

c) Proof of the market value of the subject property may consist of an appraisal of the subject property as of the assessment date at issue, a recent sale of the subject property, evidence of the cost of construction of the subject property including the cost of the land and the value of any labor provided by the owner if the date of construction is proximate to the assessment date, or documentation of recent sales of suggested comparable properties together with documentation of the similarity, proximity and lack of distinguishing characteristics of the sales comparables to the subject property.

d) The Property Tax Appeal Board may consider appeals based upon contentions of law. Such contentions of law must be concerned with the correct assessment of the subject property. If contentions of law are raised, the party shall submit a brief in support of his position.

e) Upon receipt of the argument and accompanying documentation filed by a party, any other party may, within 30 days of receipt, file written or documentary rebuttal evidence. Rebuttal evidence shall consist of written or documentary evidence submitted to explain, repel, counteract or disprove facts given in evidence by an adverse party and must tend to explain or contradict or disprove evidence offered by an adverse party.

4) Statutory Authority:

Illinois School Code  
Ill. Rev. Stat. 1987, ch. 122, par. 27-8.1 et seq.

5) A Complete Description of the Subjects and Issues Involved:

The rules pertaining to Child Health Examinations (77 Ill. Adm. Code 665) cover required physical examinations, immunizations and screening tests related to school children.

The proposed amendments would change the mandated form to reflect current medical practice and clarify the ages when the examinations are required. Section 665.140 would be amended to change language related to special education students so that students entering high school are not required to have an examination at age 14 and again the following year.

Section 665.150 would be amended to permit Head Start physical examination forms in lieu of the required form. It also makes changes to reflect current language usage and medical practice.

Section 665.280 would be amended to clarify that students who are determined by the Department to be out of compliance for immunizations are subject to exclusion provisions.

In most cases, the effect of the amended rules will ease the burden on parents of Head Start children and of special education students entering regular grades in high school. The changes may require examinations for very young children enrolled in preschool programs operated by elementary or secondary schools, but is not more stringent than health requirements of children in day care or nursery schools licensed by the Department of Children and Family Services.

## DEPARTMENT OF PUBLIC HEALTH

## NOTICE OF PROPOSED AMENDMENTS

The estimated economic impact relates to the cost of printing new Child Health Examination forms. The 1987 cost of printing one million forms was approximately \$12,000. To print new forms by 1990 is estimated to be approximately \$25,000. Nearly 500,000 forms are used annually.

The economic impact upon the parents of school children is expected to remain the same as current rules. The total number of child health examinations will not be affected except for very young children enrolled in preschool programs operated by schools and then only if the child was enrolled in the preschool program for more than two years. This presently affects very few children. Some parents of special education students may have lowered costs, since they will not have to bear the costs of examinations for two consecutive years.

The economic impact upon physicians will be slightly lower, since, for some Head Start students, the number of forms to complete will decrease.

The Department anticipates that this proposed rulemaking will become effective approximately six to nine months, from the date of publication as proposed in the Illinois Register.

## SUBPART B: UNDERGROUND STORAGE TANKS -- TECHNICAL REQUIREMENTS

## Section 170.610 Initial Abatement Measures and Site Check

Unless directed in writing to do otherwise by the Office of the State Fire Marshal, owners and operators must perform the following abatement measures:

- a) Remove as much of the regulated substance from the UST system as is necessary to prevent further release to the environment;
- b) Visually inspect any aboveground releases or exposed belowground releases and prevent further migration of the released substance into surrounding soils and ground-water;
- c) Continue to monitor and mitigate any additional fire and safety hazards posed by vapors or free product that have migrated from the UST excavation zone and entered into subsurface structures (such as sewers or basements);
- d) Remedy hazards posed by contaminated soils that are excavated or exposed as a result of release confirmation, site investigation, abatement or corrective action activities. If these remedies include treatment or disposal of soils, the owner and operator must comply with applicable State and local requirements; and
- e) Measure for the presence of a release where contamination is most likely to be present at the UST site, unless the presence and source of the release have been confirmed in accordance with the site check required by Section 170.580(b) or the removal site assessment of Section 170.640(a). In selecting sample types, sample locations and measurement methods, the owner and operator must consider the nature of the stored substance, the type of backfill, depth to ground-water, and other factors as appropriate for identifying the presence and source of the release.

## SUBPART A: GENERAL PROVISIONS

## Section 790.20 Introduction

Stat., 1983, 1987, Ch. 56 1/2, par. 503.14) to allow interchange of different brands or nonbrands of the same generic drug entity for a drug product prescribed by a specific trade name. Products selected for interchange must be pharmaceutically equivalent to the prescribed product and must be listed in a positive drug product formulary known as the Illinois Formulary which has been developed, maintained and issued by the Illinois Department of Public Health (hereinafter referred to as the "Department"). The practice of selecting an equivalent drug product from the Illinois Formulary to dispense instead of the trade name product prescribed is known as Drug Product Selection (DPS).
- b) The initial issue of the Illinois Formulary for use in Drug Product Selection became effective on July 1, 1978. Periodic updates to the Illinois Formulary will be distributed by the Department of Public Health. Recipients of the Illinois Formulary will include licensed physicians and pharmacists practicing in

Prior to being sanctioned for DPS use, the product must pass FDA criteria specific for DPS approval which may be more stringent than that required for general marketing approval.
- c) Products in generic entities (as described in Section 790.100 of this Part) never previously reviewed in any manner shall be ineligible for consideration at Technical Advisory Council meetings if the products' FDA approval date is 30 or fewer days prior to the scheduled Technical Advisory Council meeting. ## Section 1240.40 Equipment Options for Connecting to LEADS

- a) Provided that an agency qualifies for participation in LEADS as described in Section 1240.30 of this part, there are three (3) options for obtaining equipment and physically connecting to the system. These options are:

- 1) Department of State Police (DSP)BBS Supplies Standard Equipment -- Fully-Supported Environment
- 2) Agency Supplies Non-Standard Equipment -- Non-Supported Environment
- 3) Agency Supplies Standard Equipment -- Semi-Supported Environment

- b) "Supported" Defined  
The term "supported" refers to the assistance which will be provided by the Department of Law-Enforcement-(BBS) State Police to the user agency. This could include the following:

- 1) Systems analysis and design
- 2) Computer programming

- 3) Equipment ordering, installation, maintenance, moving and removal
- 4) Training
- 5) Operating procedures and reference manuals
- 6) Statistics on each terminal's usage of LEADS
- c) Requirement for Advance Written Request  
An agency must make a written request 90 days in advance of the desired connection date. The request must be sent to the LEADS Administrator, 501 Armory Building, Springfield, Illinois 62706. The request must indicate when connection to LEADS is desired and which of the three options is planned.

- d) DSPBBS Supplies Standard Equipment -- Fully-Supported Environment  
An agency will be fully supported when it requests that the Department of Law-Enforcement-(BBS) State Police (DSP) make all arrangements to provide standard equipment. In this case, BBS DSP and the participating agency will have the following responsibilities:

- 1) The Department of State PoliceLaw-Enforcement will:
  - A) Place all orders for the installation, relocation or removal of all line-related and terminal-related equipment.
  - B) Make all technical services arrangements related to installation, maintenance, relocation and removal of all necessary equipment.
  - C) Perform all systems analysis, design and programming required at both the Data Center and the terminal.
  - D) Absorb all costs related to the computer equipment at the Data Center.
  - E) Provide training for terminal operators and interested administrative personnel representing the participating agency.
  - F) Provide a reference manual, publications, notices and special bulletins.
  - G) Provide assistance toward the solution of operational problems.

- 2) The Fully-Supported agency will:
  - A) Pay the cost of installation, monthly rental, relocation and removal of all terminal equipment and communications facilities.
  - B) Procure and pay the cost of all consumable supplies (printer paper, ribbons, etc.).
  - C) Provide operating and administrative personnel at the terminal site.
  - D) Absorb the cost of travel, lodging and meals for its own personnel attending training sessions, conferences, etc., unless otherwise stipulated by the Department of State PoliceLaw-Enforcement.

- e) Agency Supplies Non-Standard Equipment -- Non-Supported Environment  
When a department elects to obtain its own terminal equipment that is not identical to equipment offered through BBS DSP, that department is operating in a non-supported environment. This means that the agency may connect its equipment to LEADS, but will not receive the full

DEPARTMENT OF STATE POLICE

NOTICE OF ADOPTED AMENDMENT(S)

support from DSPBBB offered to users of standard equipment. A special example of non-standard equipment is the mobile terminal which is covered in paragraph subsection (g) below. DSPBBB and the user agency will meet the following responsibilities:

- 1) The Department of Law-Enforcement State Police will:
  - A) Provide technical information such as communications disciplines (electronic procedures by which computers and terminals "talk" to each other) and message structures necessary for successful connection to LEADS.
 

CAUTION: LEADS will only allow connection of equipment which operates at certain specific data transmission rates and which uses one of the communications disciplines which B6B DSP supports. B6B DSP will not perform special programming to support a communications discipline that is not already supported by B6B DSP.
  - B) Place orders for the installation, relocation or removal of all communications lines and related communications facilities (modems).
  - C) Perform all programming required at the B6B DSP Data Center which is identical to that provided for the fully supported environment.
  - D) Make all technical services arrangements related to the installation, maintenance, repair, relocation and removal of all communications lines and related communications equipment. B6B DSP will not be responsible for maintenance arrangements on any of the user agency's terminal equipment.
  - E) Absorb all costs related to the computer equipment at the B6B DSP Data Center, with the exception of those costs related to the transmission control unit in such cases where a non-supported terminal requires additional equipment on that unit.
  - F) Provide a reference manual, publications, notices and special bulletins in the language of the Fully-Supported Terminal Environment.
 

CAUTION: The user must understand that the terminology and procedures described in LEADS publications will frequently not correspond exactly to the terminology and procedures established in the non-supported environment. This places an additional responsibility on the user agency to insure that all LEADS-written communications are understood and adhered to.
  - G) Provide training for terminal operators and interested administrative personnel in the use of the LEADS Operating and Reference Manuals and the various LEADS services. B6B DSP will not provide training on the operation of non-standard terminal equipment.
  - H) Provide assistance for identifying the source of operational

problems. B6B DSP will make arrangements for the correction of those problems determined to be related to the Data Center or the communications line. DSPBBB accepts no responsibility for the correction of difficulties found to be associated with the user's terminal equipment.

- 2) The Non-Supported agency will:
  - A) Arrange for a conference between its own representatives, the terminal vendor, and B6B DSP. The conference must be successfully concluded before B6B DSP will make any preparations for connection of non-standard equipment. DSPBBB suggests that this meeting occur prior to the signing of a contract between a participating agency and any vendor. If not prior to signing, the meeting should occur at the earliest possible time thereafter. B6B DSP accepts no responsibility for misunderstanding of LEADS specifications and requirements which occur between the local agency and its vendor.
  - B) Pay the cost of supplies and the cost of installation, monthly rental, relocation and removal of all terminal and line-related equipment.
  - C) Pay the cost of a dedicated communications line (a line to which no other agency is connected).
 

CAUTION: The cost of a dedicated line is based on the distance between the local terminal and the LEADS Data Center, and on the data transmission rate desired. This cost is frequently much higher than local agencies anticipate and has resulted in significant changes to agency plans.
  - D) Pay the cost of connecting the communications line to the transmission control unit at the LEADS Data Center.
  - E) Pay the cost of all design work, programming and maintenance associated with the terminal equipment. (Maintenance of the communications line is included in the monthly line charge.)
  - F) Pay all expenses resulting from problems which are caused by the terminal equipment.
  - G) Provide operating and administrative personnel at the terminal location.
  - H) Provide training of agency personnel in the use of terminal equipment.
  - I) Insure that an individual agency's system will provide access to all authorized LEADS files and services, and permit the agency's operator to perform all functions that may be performed on fully-supported equipment. The only exception is the service of on-line entry of Uniform Crime Reports (I-UCR) data which the agency may elect not to provide.
  - J) Absorb all costs for reprogramming and equipment modifications which become necessary to keep in step with changes made at the LEADS Data Center. (See Section

## NOTICE OF ADOPTED AMENDMENT(S)

1240.130(b) of this Part.)

CAUTION: LEADS is constantly being changed. New capabilities are added frequently. An agency operating in the Non-Supported Environment must be prepared to absorb the costs necessary to provide all of the same services LEADS provides to fully-supported terminals. Electing not to supply all services offered by LEADS (with the exception of on-line I-UCR data entry) is in violation of this Part.

- K) Absorb the expense of travel, lodging and meals incurred by agency and vendor representatives who attend training sessions, conferences, etc., unless otherwise stipulated by B&B DSP.

- F) Agency Supplies Standard Equipment -- Semi-Supported Environment  
An agency will qualify for nearly full support when it obtains equipment from its own sources which is identical to equipment offered through B&B DSP.

1) The Department of Law-Enforcement State Police will:

- A) Place all orders for the installation, relocation or removal of the communications lines and related equipment (modems).  
B) Make all technical services arrangements for installation, maintenance, relocation and removal of the communications lines and equipment.  
C) Perform all system analysis, design and programming required at both the Data Center and the terminal.  
D) Absorb all costs related to the computer equipment at the Data Center.  
E) Provide training for terminal operators and interested administrative personnel representing the participating agency.  
F) Provide a reference manual, publications, notices and special bulletins.  
G) Provide assistance towards the solution of operational problems.
- 2) The Semi-Supported agency will:
- A) Meet with B&B DSP if requested to do so.  
B) Make all arrangements for installation, relocation, maintenance and removal of the terminal equipment.  
C) Assume all responsibility for contractual agreements with the terminal vendor and all related expenses.  
D) Provide operating and administrative personnel at the terminal site.  
E) Absorb the cost of travel, lodging and meals for its own personnel attending training sessions, conferences, etc., unless other funding is provided to the agency.  
F) Notify B&B DSP in writing and receive approval from B&B DSP prior to any change being made to the terminal equipment.  
G) Notify B&B DSP in writing and receive approval from B&B DSP prior to connecting the equipment to or disconnecting it

from LEADS.

- H) Bear the expense of changes to the terminal equipment made necessary by changes to LEADS.

AGENCY NOTE: All written communications necessary for the above must be addressed to LEADS Administrator, Department of State Police Law-Enforcement, 501 Armory Building, Springfield, Illinois 62706.

9) Mobile Terminals

- 1) "Mobile Terminal" Defined -- A mobile terminal is a device installed in a vehicle which has the capability to send and/or receive digital messages. There are two basic types in use:  
A) the receive-only teleprinter which has no typewriter-like keyboard.

- B) the two-way mobile terminal which lets the officer type out and send messages from the vehicle as well as to receive messages.

- 2) Mobile Terminal Regulations -- Both types of mobile terminals, when used to send data to and/or to receive data from LEADS, are governed by the regulations for the Non-Supported Environment covered in paragraph subsection (e) of this Section. In addition, the following requirements must be met by the agency participating in LEADS:

- A) Before requesting bids for any mobile terminal equipment, the LEADS Administrator must be notified in writing of:  
i) the fact that mobile terminals are being planned,  
ii) the type of mobile terminal,  
iii) the number of mobile terminals to be installed, and  
iv) the installation date.

- B) If called for by the LEADS Administrator, the agency must meet with the LEADS Staff.

- C) The agency must satisfy the LEADS Administrator that safeguards will be employed to guarantee that computerized Criminal History data may neither be directly requested nor received at any mobile terminal. Prior to any transmission of Computerized Criminal History (CCH) data to an agency's mobile terminals, the agency must receive written approval from the LEADS Administrator and the Chief of the Bureau of Identification of the Department of State Police. Approval shall be granted only if the LEADS Administrator and the Chief of the Bureau of Identification of the Department of State Police are satisfied that safeguards will be employed to ensure that CCH data transmitted to mobile terminals will not be accessed or viewed by any individual not authorized by "AN ACT in relation to criminal identification and investigation" (Ill. Rev. Stat. 1987, ch. 38, pars. 206-1 et seq.) to utilize CCH data. This satisfaction will be based upon the following safeguards:

- 1) The mobile terminal must be disabled or removed when

The Sections Affected Index lists, by Title, each Section of a codified Part on which rulemaking activity has occurred in this volume of the Register and is divided into two parts: the first lists the Sections on which rulemaking activity occurred in the previous issues of this volume year; the second lists the Sections on which rulemaking activity occurred in this issue of the Register. (The headings at the top of each page indicate the two parts: the first part shows the previous issue numbers inclusively and the date of the last published issue; the second lists the current issue number and date.) The columns in both parts indicate the type of rulemaking activity and the action taken along with the page number on which the first page of the notice of rulemaking activity appeared. If a Section on which action is being taken in the current volume (calendar year) of the Register was proposed in a previous volume, (e.g. I III. Adm. Code 100-280 was proposed last year and adopted this year. The action entry reads: (P-8577/86; A-724)) The codes for both columns are listed below. For a complete listing of the Titles of the *Illinois Administrative Code*, please refer to I III. Adm. Code 100-140 or contact the Administrative Code Division.
